

Mini Cap Switcher

Swap out your caps
with a tiny footprint

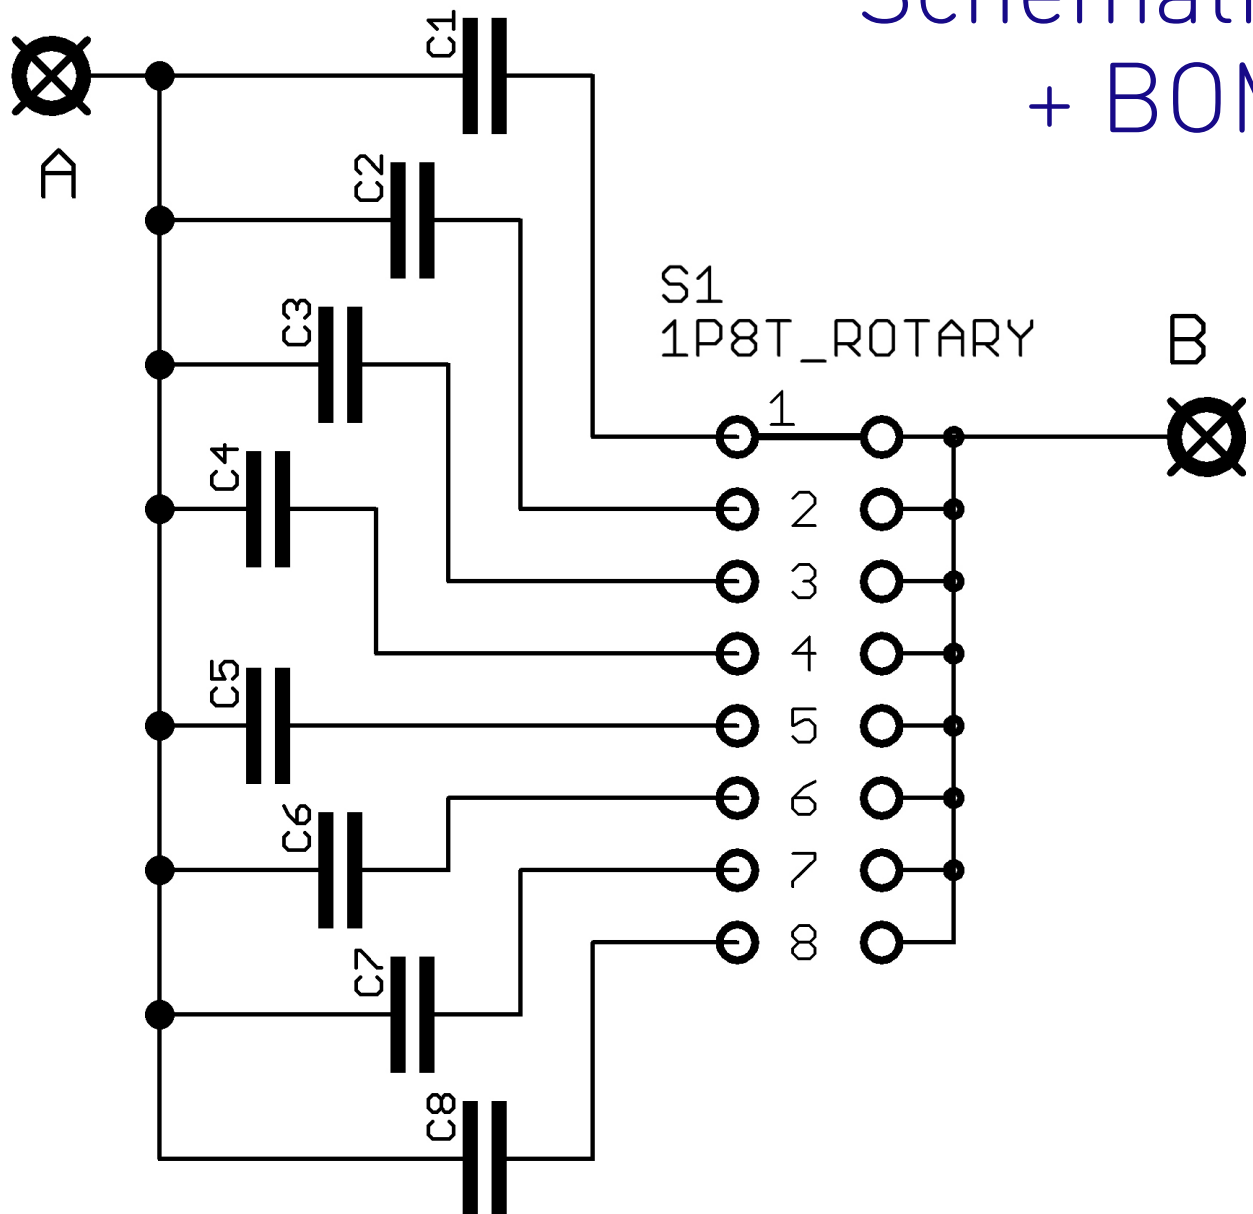

Before you dig in, ensure you download and read the **General Build Guide**.

It contains all the information you need for a successful outcome.

Schematic + BOM

There are no rules. Use whichever value caps you like.

The switching order runs clockwise from C1 to C8.

Switch footprint matches:

Tayda SKU A-5950

PedalPCB SKU: 6-8-8

The PI Hut SKU: 105659

Wiring

Simply wire pads A and B to the two pads of the cap you want to replace.
